Solo Player

```
F#m                               D
From the moment you walked into my life,
E                           C#m
Everything felt so right.
F#m                           D
From the moment I looked into your eyes,
E                                 C#m
I knew I had to make you mine.
F#m                   D                              A
E
Girl you had me hooked on your love but it was all a game to you.
F#m                       D
You drove a stake right through to my heart,
A                                 C#m
and left me bleeding for your love.
```

```
F#m                       D
I tried everything to prove I loved you,
A                 E                              F#m
Gave my all to make all of your dreams come true.
F#m                   D                 A
But I m no longer blinded by your lies,
E
I know your heart was never mine.

D                       E
Why am I the solo player (in this game for two)
D                   E
I m the solo player (your love was never true)
D                       E
I want the solo player (in this game for two)
D                           E
I can be the solo player (love is a game for two)
```

F#m                           D
I saw the look at your smile and it makes me feel,
E                           C#m
Everything will be all right (Oh yeah)
F#m                       D
It s like I m still in love with you,
E                         C#
Or maybe I m just a fool.
F#m                   D                              A

It doesn t matter how much I loved you,
Bm                      F#m
Or how much I cared.
D                        E
Even if you come crawling back girl,
Bm                            F#m
Next time I won t be there.

F#m                            A
I m prepared to leave it all behind,
E
Oh no, you were never mine.
F#m                        A
And even though it breaks my heart,
D                        E
Girl I got to let you go.

F#m                          D
I tried everything to prove I loved you,
A                E                                        F#m
