**D**

It s been a long time and I find

**G**

I ve gotten over you

**D**

Lots of untold women

**A**

And a lot of whiskey down

**D**

Tonight I m lying here

**G**

**D**

In this city I don t know

**A**

**D D7**

Thinking I might call you up again

**CHORUS**

**G**

**D**

Would you tell me that you ve been dreaming of me?

**A**

You ve been waking up and waiting on my call

**D**

**G**

**D**

Or is that just me doing some wishful drinking?

**A**

**D**

I wonder if you ve thought of me at all

My life has been a long line of habits I can t break

Every one has finally brought me down

Take another pull

Put this bottle on the ground

I said I was through

Would you believe me now?

**CHORUS**

Would you tell me that you ve been dreaming of me?

You ve been waking up and waiting on my call

Or is that just me doing some wishful drinking?

I wonder if you ve thought of me at all

I don t know why I thought I could come around tonight

Maybe I d just hoped I d hit the ground

It s time to fly again

Maybe I ll see you someday  
We can talk about how far we ve come

#### CHORUS

Would you tell me that you ve been dreaming of me?  
You ve been waking up and waiting on my call  
Or is that just me doing some wishful drinking?  
I wonder if you ve thought of me at all

Yeah, is that just me doing some wishful drinking?  
I wonder if you ve thought of me at all
