INTRO - {finger picked} A A\C# DIV F#mIX EVII Bm

There s something I d like to confess
At the risk of exposing my faults
But I m starting to find that most of the time
I just don t like people at all

When I saw you five minutes ago
I was afraid you might talk off my ear
I panicked inside and decided to hide
And that s how I ended up here

Crouching behind the live lobster tank
Hoping you d just pass me by, oh...
That s how I ended up here
That s how I ended up here

Oh how I wish I could say
It s my first time to hide in this spot
But with all of the people I try to avoid
I find myself down here a lot
