

**Flying Over Water**  
**Jason Isbell**

Jason Isbell  
Flying over Water

[Intro]

**A E A**

[Verse]

**A E A**  
From the sky we look so organized and brave  
**D E A (G#)**  
Walls that make up barricades and graves  
**F#m D A (C#) D**  
Daddy s little empire built by hand and built by slaves  
**A E A**  
From the sky we look so organized and brave

**A E A**  
In the heat I saw you rising from the dirt  
**D E A (G#)**  
Drunken tears and tugging at your skirt  
**F#m D A (C#) D**  
If only you could tell me then what part of you got hurt  
**A E A**  
In the heat I saw you rising from the dirt

[Chorus]

**F#m A D A**  
Take my hand baby we re over land  
**F#m A E**  
I know flying over water makes you cry  
**F#m A**  
Where s that liquor cart?  
**D A**  
Maybe we shouldn t start  
**F#m A E**  
But I can t say for the life of me say why

[Verse]

**A E A**  
From the sky to highway straight as it could be  
**D E A (G#)**  
A string pulled tight home from Tennessee  
**F#m D A (C#) D**  
Still somehow these ditches took the better part of me  
**A E A**  
From the sky to highway straight as it could be

[Chorus]

**F#m**        **A**                    **D**        **A**  
Take my hand baby we re over land  
          **F#m**                    **A**                    **E**  
I know flying over water makes you cry  
          **F#m**        **A**  
Been in the sky so long  
                          **D**                    **A**  
Seems like the long way home  
          **F#m**                    **A**                    **E**  
But I can t for the life of me say why

[Bridge]

**Bm**                    **F#m**  
Did we leave our love behind?  
          **Bm**                    **F#m**                    **E**  
Did we leave our love behind?  
          **Bm**                    **F#m**  
Did we leave our love behind?  
          **Bm**                    **F#m**                    **E**  
Did we leave our love behind?

[Chorus]

**F#m**        **A**                    **D**        **A**  
Take my hand baby we re over land  
          **F#m**                    **A**                    **E**  
I know flying over water makes you cry  
          **F#m**        **A**  
Been in the sky so long  
                          **D**                    **A**  
Seems like the long way home  
          **F#m**                    **A**                    **E**  
But I can t for the life of me say why

**Bm**                    **F#m**  
Did we leave our love behind?  
          **Bm**                    **F#m**                    **E**  
Did we leave our love behind?
