I Don't Miss You
Jason Mraz
intro: C#m7 G#m A B7 (2x)
Every day is a day in paradise
I choose to view my life
Is not a dream I can see
How the world is alive
Is everchanging
Every season s a brand new style and dress
C#m7
Every day gets my sunday best
But many hours I lay awake
Wondering how the hell you are today
F#m
Cause as carefree as you came to me
You turn around and became a memory
You know how I know god loves me?
Cause I m still standing
                   C#m7
Е
                   cause I m always thinking about you in my arms
I don t miss you,
                   C#m7
I don t miss you, cause I m always living with you in my heart
(G#m C#m7)(2x)
Not every night does the moon rise red
C#m7
Low in the sky just above our heads
You only get a little minute to hold it
```

Е

Let s just enjoy each moment

```
I enjoy the intensity of being your boy
C#m7
And you being there for me
For many moons I reminisce
And keep the light for ever led, yeah
F#m
As quickly as you came to me
You took a bow and became a memory
You know how I know god loves me?
Cause I m still standing
