Even only twenty-four hours under your touch

You know I need you so much I

I cannot wait to call you

And tell you that I landed somewhere

And hand you a square of the airport

And walk you through the maze of the map that I m gazing at

Gracefully unnamed and feeling guilty for the look

And the luck that you gave me

You make me somebody

Oh no body knows me

Not even me can see

Chorus:

Yet I bet I m

I m leaving your town again

And I m over the ground that youve been spinning

And I m up in the air so baby hell yeah

Well honey I can see your house from here

If the plane goes down, damn

I ll remember where the love was found

If the plane goes down, damn

Stumbling through the work that I have to do
