```
       Em7             Cadd9              G       D/F#
I understand you never had someone to follow
       Em7         Cadd9              G         D/F#
I know you always said you d find it your own way
       Em7           Cadd9                  G         D/F#
You keep your feelings safe like letters in a bottle
    Em7                      Cadd9         G (different timing, try A bit)
Hoping that they d wash up on my shore someday
D/F#
        Don t make me wait
```

```
Em7          Cadd9      G      D/F#
I see something hiding inside you
Em7         Cadd9      G     D/F#
Secrets you are dying to say
[I know you re afraid]
   Em7      Cadd9             G        D/F#
But if you want me never to leave you

Not stranger to the wonders of your silence
Em7              add9                          G          D/F#
