

**Ways To Love**  
**Jason Webley**

kk, this was done all by ear, so it might be wrong. Ratings would be awesome!  
Thanks!

Intro:

**F# Ebm C# B**  
**Ebm**

Verse:

**Ebm**

Our mother made us into swimmers  
She threw her babes into this river

**C#**

Full of mud and dense with weeds, a century of odd debris  
We learned to fight and learned to love-

**Ebm**

Our breaths were short we shared them with our brothers  
We learned new games under the covers

**C#**

How to laugh and how to grieve  
We learned to trust, we learned to leave  
We found this water s deeper than we-

Chorus:

**F# Bb Ebm C#**

Guessed we had learned enough ways to love

**B Bm/D Ebm**

Still I don t know mother who we are

Verse:

Our minds were sharp, our bodies burning  
We gave ourselves over to learning  
How to break and how to give  
Betrayal taught us to forgive  
We stretched and soaked up everything-  
They taught us well, we were first in our classes  
We learned to see through many glasses  
How to sink and how to fly  
We learned to watch each other die  
My God, this course is harder than we-

Chorus:

Thought we had learned enough ways to love  
Still I don t know mother where we are  
We thought we were walking the way to love

Verse:

Our mother made us into swimmers

She threw us straight into the river  
Our minds were sharp, our bodies burning  
We threw ourselves into our learning  
Dear God, this current s stronger than we-

Chorus:

**F# Bb Ebm C#**

Thought we had learned enough ways to love

**B Bm Ebm C#**

Still I don t know mother who you are

**F# Bb Ebm Ebm/F#**

I thought I was well on my way to love

Outro (**F# Ebm C# B**):

Do we have time to take a nap?

The house is on fire, the sky is falling

Baby get back. Get back. This is your mother calling
