Slowly - Jasper Sloan Yip

www.jaspersloanyip.com

Great song by a great band with a strange name. They deserve to get more recognition.

The chords are easy, but you can add a few notes to the transitions to spice it up a little.

Intro: **G D Em Am C** x2

**G D Em**  
I know that it s been said before,  
**Am C**  
but not like this, or with these chords:

**G D Em**  
I wish that I was someone else  
**Am C**  
so I could sit down with myself,  
**G D Em**  
and maybe I could help explain  
**Am C**  
these crazy thoughts I entertain  
**G D Em**  
about my life, and everything,  
**Am C**  
like how it s really happening right now.

**G D Em Am C** x2

**G D Em**  
I m bored, I m restless, disconnected,  
**Am C**  
aimlessness has left me breathless.  
**G D Em**  
But my life has been redirected  
**Am C**  
and I m starting to accept this.  
**G D Em**  
So efforts now must be relentless  
**Am C**  
because failure s leaving me so upset with  
**G D Em**  
myself, but I swear this is all that I love;  
**Am C**  
you re going to see exactly what I m made of tonight.

G D Em Am C C

As for the rest of my life,  
well, I ll just wait and see what happens to me  
from here.

So it seems, like all of the time  
I m about to change my mind.  
I m so naive, yet resolute  
after I ve decided what to do.  
I can t wear a tie on my collared shirt,  
I can t get a job and just go to work.  
I m worried sick like you wouldn t believe  
have you any idea what this means to me?

G Em Am C x2

Looking back now makes me laugh,  
I m grateful I don t want the things that I lack.  
Except for time, oh goddam me,  
when did free time become such a luxury?  
See, if I don t do this while I m young  
I m certain that it wont get done.  
So I ve made my choice and it s all right,  
I m ready to really start living my life.  
So I swear to god that I will quit my job  
and drive until my car just stops.

G D Em

I ll walk until I reach the ocean,  
**Am**                    **C**            **D**        **G**  
maybe I will know what to do by then.
