

Hoping Machine Jay Farrar

From the 2012 New Multitudes Album. I m pretty sure that this is played in some kind of open tuning on the record, but here s my take in standard tuning.

Capo 3

D A X2

[**D**] Don t let anything knock your [**A**] props out from under you
[**D**] Always keep your mind clear let your [**A**] plans come out of mistakes
[**D**] these are the plans and [**A**] nothing can tear down
[**D**] made out of things that have already been [**A**] torn down

[**E**] whatever you do and [**D**] wherever you go
[**E**] don t lose your grip on life and that [**D**] means
[**E**] don t let any earthly cala [**D**] mity knock your dreamer and your hoping [**A**] machine

D A X2

[**D**] music is the language of the [**A**] mind that travels
[**D**] carries the key to the [**A**] laws of time and space
[**D**] lonesome train whistling down the [**A**] silent rail of wind
[**D**] life is the sound creation has been a [**A**] song

[**E**] whatever you do and [**D**] wherever you go
[**E**] don t lose your grip on life and that [**D**] means
[**E**] don t let any earthly cala [**D**] mity knock your dreamer and your hoping [**A**] machine

[**E**] out of order, [**D**] out of order, [**A**] out of order X2

D A x2

[**D**] quick to manufacture new [**A**] schemes and ideas
[**D**] faster than any turn the [**A**] tide can wash you out
[**D**] word is the music and the [**A**] people are the song
[**D**] tomorrow s chances feel like a singing [**A**] gun

[**E**] whatever you do and [**D**] wherever you go
[**E**] don t lose your grip on life and that [**D**] means
[**E**] don t let any earthly cala [**D**] mity knock your dreamer and your hoping [**A**] machine

[**E**] out of order, [**D**] out of order, [**A**] out of order X4
