**C** **G**  
I ll send you photographs of everything I do  
**F** **C** **G**  
Echoed in my mind as I arrived at Waterloo  
**C** **G**  
Jamie met me and we took the Tube down south  
**F** **C** **G**  
They ve got pretty girls down there with legs up to their mouths

**C** **G**  
And once I d settled in we played on our guitars  
**F** **C** **G**  
And we tried to learn our favourite song but hit the local bars  
**C** **G**  
We lost our heads and ventured into Leicester Square  
**F** **C** **G**  
Willingly I ll never spend another second there

[Chorus]

**C** **G** **Am** **F**  
But I would like to sail away with you  
**C** **G** **C**  
To a place where the sky and the ocean are the same shade of blue

**C** **G**  
Well, I without a home went west to check one out  
**F** **C** **G**  
And I bribed him with a bottle just to kill off any doubt  
**C** **G**  
I took my shit to work and made their house a home  
**F** **C** **G**  
And I thought about my family and how quickly I had grown

**C** **G**  
And on the weekend I bought records from the fairs  
**F** **C** **G**  
And I walked around alone amongst the busy millionaires

**C** **G**  
 And I was lonely but happy and I thought  
**F** **C** **G**  
 For the first time in my life, I've lived a life I always sought

**C** **G** **Am** **F**  
 And I would like to sail away with you  
**C** **G** **C**  
 To a place where the sky and ocean are the same shade of blue  
**C** **G** **Am** **F**  
 Yes, I would like to sail away with you  
**C** **G** **C**  
 To a place where the sky and the ocean are the same shade of blue

**F** **G**  
 But in the end, what matters  
**C** **F**  
 Yes, what matters to me  
**C** **G** **C**  
 So I'll sing in the end what matters is we're all free.
