capo: 6th fret

Verse 1

**Em** **Am** **Em**  
Hey Lenny, don t those city lights look real pretty,  
as the moon cascades a smile over Main and Hastings,  
You came in from the hammer on a grey hound coach out west,  
**Em** **Am** **Em**  
you ll find those nacreitos waiting for you with a gift,  
  
**Em** **Am** **Em**  
I ll say my good byes, and leave you with a smile,  
I don t have any friends around here but the gesture is worth while,  
The boys downtown in the government, are waiting for our votes,  
**Em** **Am**  
but the nacreitos are makin sure they get that tax we owe

\*the other verses are the same\*

Bridge: **C,G,D,Em**

Verse 2

Did you hear they don t want your safe house here anymore,  
and they cut the odds with a steely knife and sent kids off to war  
Theres no room for an audit or an artist in the house  
Its law and order all the while in a nacetios smile

And I ve been told the PM thinks that he is colour blind  
Theres crime and punishment in prisons, those he leaves behind  
Just take those needles and lock the key and turn away your eyes  
theres no rehabilitaion in a nacetios mind

Verse 3

So Lenny, this city sleeps and now i ll say goodbye

we ve got no buisness here in these chambers of our times  
if you d rather put your money, on a 8ft piece of land  
its all goin to the government, and organized crime
