

High On You

Jeangu Macrooy

Dmaj7

I could roll me a joint

And smoke it up

Gmaj7

Till i can t stand straight any more

Dmaj7

I could pour me some wine

And drink it up

Gmaj7

Till everything s spinning around

Em

But none of that can take me there

A

I m still feeling low

Em

But none of this can take me there

A

I don t wanna settle for less no more

Gmaj7

I d rather be high (high), high, high on you (high on you)

Dmaj7

I could try to go out and dance all night

Gmaj7

Wake up next to somebody else

Dmaj7

Or i could pop some more pills

Gmaj7

Just to feel a rush, to feel my blood run faster

Em

But none of that can take me there

A

I m still feeling low

Em

None of this can take me there

A

I don t wanna settle for less no more

Gmaj7

I d rather be high (high), high, high on you (high on you)

Cause only you can lift me off the ground
 Turn my body out
 Make me feel like i m flying high (high), high, high on you (high on you)
 I don t fuck with artificial remedies
 But I wanna feel you underneath my skin
 I d rather be high, high, high on you
 I d rather be high, high on, high on you baby
 I d rather be high (high), high, high on you (high on you)
 I d rather be high (high), high, high on you (high on you)
 Only you can lift me off the ground
 Turn my body out
 Make me feel like i m flying high (high), high, high on you (high on you)
