Em C
You feel my anger radiate

Em
And I am in danger to be the danger
Am C
The quiet anger that troubles water
Em
Smile on my face, I m going under
Am C
Fear radiates, let s set the fire

[Chorus]

Em C
You feel my anger radiate
Em C
My brutality, oh disseminate
Em C
Still feels empty round me
Em C
But now, now I can bare that they can see

Em C
If you rise with the sun, we will rise together
Em C
Battle s only just begun and I m going under

If you rise with the sun, we will go together
Em C
Battle s only just begun and I m going under

[Verse 3]

Em **C**
You feel my anger radiate
Em **C**
My brutality, oh disseminate
