Song: Heaven Right Here

Here s an awesome summer song! It s easy to play and fun to sing. Have a blast!

Em

I got penny change in my pocket

A

I got heaven on my mind

Em

Got a gravel road I got 20 miles

A

Gonna spend a little time

Em

For the ways of the world seem to frustrate

A

Always stealing food off from the next plate

Em

Only hate is a fate and it s too late

A

All we get is a crumb from the big cake

Em (No chord)

So I ll stop slow down

Em A

Watch the sun go down

D

Come on over to my yard

G

Sit around

A

And let your troubles all disappear

D

come on over to my yard

G A D

Cause right now heaven s right here

It was rain and sunny in the morning

Afternoon the clouds gave chase

I don t want to take my place in that rat race

As for love there s no trace of that face

And it chills me right down to my backbone

And a lonesome soul far from home

When the world that they made starts to fall down

I ll be here so why don t you come around

And we ll all stop, slow down
Watch the sun go down

I ll just take my time
I m gonna relax my mind

Come on over to my yard
Sit around
and let your troubles all disappear
Come on over to my yard
Cause right now heaven s right here
(yes it is)

Come on over to my yard
Sit around and let your troubles all disappear
Come over to my yard
Cause right now heaven s right here
(so come along)
Right now heaven s right here
(yes it is)

Come on over to my yard
(come along come along)
Sit around let your trouble all disapper
(all disappear)
Come on over to my yard
(ooohohohh)
Cause right now heaven s right here
(yes it is, I said a)
Right now heaven ts right here
(let me say)
Right now heaven s right here

Yes it is....

Hope you Enjoy! :-)
