I started falling, for you, without a warning.

D

In my dreams, I m asking your name,

A

Put your number down,

Em

Then I wake up and I chickened out.

G

This part I hated, young love is so complicated

Em

G

I know what people say, don t get carried away

Em

Say boy, you ve got your whole life ahead of you.

G

But what am I suppose to do.

D

A

Young love is taking me over your love,

Em

I m losing control my heart stop, stops, when I get close to you,

G

Like lightening, striking out of the blue.

D **A**
Young love, you re stealing my sleep, but so what
Em
If you re feeling me, put your hands up, hands up
G **D**
All around the world, everybody in young love
A
(Young loveeee)

D **A**
Since that day, I ve been walking the avenue,
Em
Hoping I would bump into you or you into me
G
But nothing, just cold empty streets,
D **A**
I never thought, I would see your face again
(face again)
Em
And then just like that, I saw you walking in,
G
the doors of my show, sat down in the front row.

Em **G**
I know what people say, don t get carried away
Em
Say boy, you ve got your whole life ahead of you.
