[Verse 1]

**C F G C**  
It s so lonely on the moon  
**Am G F C**  
I hope that I can come home soon  
**Am G F C**  
Will it be the same when I return?  
**Am G F C**  
I know there s a lesson I have learned

**C F G C**  
Why does the night no more inspire?  
**Am G F C**  
As I raise the sun, I start to tire  
**Am G F C**  
I long for you to be with me  
**Am G F Am**  
But there are things that cannot be  
**Am G F C**  
And it takes some time away to see

[Pre-Chorus]

**Dm**  
And I ve spent half my life  
**Em Am**  
waiting for your call  
**F Am**  
Why do I feel I don t belong  
**Bb G**  
anywhere at all?

[Chorus]

**C F**  
When I come home  
**Am G**  
and see you again  
**C F**  
I m gonna bring the night  
**Am G**  
as my oldest friend  
**C F**  
I m gonna stay with you,  
**Am G**  
and won t repeat mistakes  
**C F**  
I no longer want to roam  
**Bb G**

I ll do what ever it takes

to come home
