## Diana 1 And 2 Jefferson Airplane

In America so many years ago

F How do you feel to shoot down your brother now And bury us in cages of cement and steel How do you feel when you look at one another right now? What do you see, tell me how do you feel Sing a song for the children that are gone Sing a song for Diana Huntress of the moon and a lady of the Earth Weather woman Diana How do you feel as you cut down your children now? And leave them dying on the grass in the sun? What do you see when you look at one another now? Tell me old man, tell me where will you run? Sing a song for the children going down Remember the ones you knew Remember what we sang and remember how we danced
