Jimmy  
**Gm**  
His secret s out  
**C** **Cm** **Gm** **F**  
The one he locked inside and denied every word about  
**C** **Cm**  
He s guilty so his story claims  
**Gm** **F**  
Twisting in his seat he repeats alone his name

**Bb**  
Counting his woes  
**D** **Gm**  
Between his every line  
**Ab** **Db** **Eb**  
Searching miles and miles to define  
**Db** **Eb**  
Just what it all means

Jimmy  
As quiet as a church mouse  
Painted every graphic scene but with few details  
His accomplice had made sure of this  
When she sealed it with a bedspring kiss  
And when his time had come to go  
Jimmy washed all of the blood stains from her clothes

But with a needle is his vein  
It became too hard to explain  
Just what it all means

Counting the words between his every line  
Searching mile and miles to define  
Just what it all means

Killing his time  
A monkey in his vein  
He knew he could not explain  
Just what it all means  
Just what it all means
