[Verse 2]

I know, oh yes, I know that we can't
Be together, but I, I just like to dream
It's so strange the way our paths have crossed
How we were brought together
It's written in the stars it seems

[Pre-chorus]

Feel so nice, oh yeah you feel so nice
I'd love to spend the night,
but I can't pay the price
Oh no, no

[Chorus]

And I'm flying so high,
High off the ground
When you're around
And I can feel you're high
Touching me inside, and it's too much to hide

[Bridge]

Am
Back to earth, where did you take me to?
Em
I know there's no such thing
Am
This painless love, well it'll catch us up
Em
And we can never win
Dm Am
But oh, I feel so alive
Dm
Oh, just wanna hold you
G E7
Hold you so tight

[Chorus]

And I'm flying so high
High off the ground
When you're around
And I can feel your high
Touching me inside
And it's too much to hide

And I'm flying so high
High off the ground
When you're around
