TAKE MY HEART BACK " Jennifer Love Hewitt

Tabbed by: Kengus

Tuning: "weird", or in other words a little below 440 Hz

Capo on 2nd fret!

I don't know what tuning this is in, or if the audio on for example YouTube is a bit off, but if your guitar is in tune - you can't play along to the song as it is. But, tune down a bit and you'll get it. You can pick the verse through as well, it's more or less the same pattern.
