So there are these little pills I been takin

```
And my doctor, she says that they re safe
                                                                   \mathbf{Bm}
But I been sleepwalking down to the lake
And wakin up in the water
And the feeling s a lie
                                           C
But the snake, it bit me
When I wasn t awake
And the scripts, they lie
                                                C
I have been poisoned from
All the things I take
G
Big wave, do do do
Big wave, do do do
Big wave
It s gonna hit me with a big wave
Big wave, do do do
Big wave, do do do
Big wave
                                                         G
It s gonna hit you with a big wave
                                Bm
I know you feel deprived
 (You don t trust me)
                         Bm
All of us still alive
(You never touch me)
                                               Bm
It s really just that I don t feel
Like it much these days
And my love s a lie
```

Cause the snake, he visits me
