Cannons

Chord structure only no riffs

There are a couple of parts in between where he does a walk or holds a chord an extra measure but you can figure that out.

Verses: **A Dsus G**

Chorus: **G D A**

threw myself on the floor
chasing time
at the door
half-past nine
self-control
place your own heart
on the goal

night will mourn
and i m sleeping on the better debt of day
like the rising off
they won t need me till tomorrow
night that claims the sky
forever dreams of a better day

half-past nine
rise at four
tracing time
after all
casting iron
self-control
place your heart
on the goal

night will mourn
and i m sleeping on the better debt of day
like the rising off
they won t need me till tomorrow
night that claims the sky
forever dreams of a better day
say you ll be around
