C Am
I m standing on the edge again
C/G F
I feel Your breath coming on the wind
C/G Am
And nothing s clear, but I can hear
Gsus G
The sound of Your voice

C Am
I feel You pull me back to the start
C/G F
To purity and a lowly heart
C/G Am
And all the words, I rehearsed
Gsus G
Are leaving but love is heard

[Chorus]

C Am
It only gets stronger, it only goes deeper
G
My head s underwater, but somehow
F
I can finally breathe
C/G Am
It only gets stronger, it only goes deeper
Gsus
My heart is on fire, and this love is
G
Setting me free

[Verse 2]

C Am
I ve nothing but these empty hands
C/G F
But with You I have everything
C/G Am
How can I lose, as long as You
Gsus G
You re the love holding onto me

[Chorus]

It only gets stronger, it only goes deeper
My head s underwater, but somehow
I can finally breathe
It only gets stronger, it only goes deeper
My heart is on fire, and this love is
Setting me free

[Bridge]

All these years and all my fears
Are lost in these tears that I cry to You
And all this pain, all my hiding and all my shame
Are drowned in these waves of perfect truth
And all these lies, that have kept me blind
Disappear as I m beholding You
Knowing all my days, I will see Your face
And nothing can erase this love

[Instrumental]

C/G Am C/E F

[Chorus]

It only gets stronger, it only goes deeper
My head s underwater, but somehow
I can finally breathe
It only gets stronger, it only goes deeper
My heart is on fire, and this love is
Setting me free
