

## Insecurities

Jess Glynne

[Verse]

I ve stretched myself too thin  
Tried to be everything  
Don t know how to love  
I can t wait too much  
I need a thicker skin  
To let nobody in  
Don t know how to guard  
My tears and my loss  
Dark nights, the silence eats me up  
But day comes and everything s enough

[Chorus]

I m free but I m fragile  
I m happy but I m worried  
I m set up but I m so afraid  
I get pins and needles  
When I think about it  
It catches me everyday  
I ve got scars on my soul that I m scared to show  
I cried in the morning but you d never know  
I should let it be  
It s just my insecurities  
I should let it be  
It s just my insecurities

[Chorus]

I tried to raise my voice  
Air crowded by the noise  
Tripped up more than twice  
Those fools taught me right  
I bared my naked soul  
All on my painful flaws  
Wish I could open up  
Take in the love  
Dark nights, the silence eats me up  
But day comes and everything s enough, oh

[Chorus]

I m free but I m fragile  
I m happy but I m worried  
I m set up but I m so afraid  
I get pins and needles  
When I think about it  
It catches me everyday  
I ve got scars on my soul that I m scared to show  
I cried in the morning but you d never know  
I should let it be  
It s just my insecurities  
I should let it be  
It s just my insecurities

Every scar that I have was worth bleeding
