Jesse Mccartney
One Night
Submitted by: paramore_fans@yahoo.com

Key: **C**

Tuning: Standard EADGBe

Chords used:
C - x32010
Em - 022000
Am - x02210
G - 320003
F - 133211

Intro: **C**-**Em**-**Am**-**F**- x2

Verse 1:
```
C                               Em
  What would you do if I gave it all to
          Am                      F
you and I traded in the limelight?
C                              Em
  What would you say if I threw it all
             Am                        F
away just to be with you for one night?
```

Refrain 1:
```
             Am                     G
What would I turn your head back?
         F
Would you take my hand?
           Am
Cause you knocked my senseless
     F                   G
Girl I will do anything
```

Chorus:
```
         C
For just one night
            Em
We only got one night
                 Am
```

```
I'm looking in your eyes
                  F
They're taking me over
           C
Girl just one night
                Em
We've only got one night
                  Am
Till we see the sunrise
                  F
Before it's all over
   C          G
Tonight fades away
      Am              F
In my arms you will stay
            C
For this one night
                Em
We've only got one night
              Am
This is our last night
                    F
Before it's all over

Post chorus:
     C      Em
Whoa oh oh oh
          Am     F
Whoa oh oh oh

Verse 2:
C                                Em
   What if I told you that I have always
                Am                       F
loved you and never got a fair shot?
C                          Em
   What if you knew that when I look
                         Am
at you with someone else
                            F
it makes my heart stop?

Refrain 2:
                Am                  G
But would you keep me chasing?
           F
Would you play it cool?
                 Am                 G
Girl won't you give me something?
        F                       G
```

Cause I’ve given everything

(Repeat Chorus)
(Repeat Post Chorus)

Bridge:
Am   **F**
  I can’t find peace without you
G   **Em**
  I can’t feel nothing when you’re gone
Am   **F**
  I want this earth to find you
Em
  Now here we are

(Repeat Chorus)

Breakdown: **C**(hold)

Outro: **C**-**Em**-**Am**-**F**- x4, **C**(hold)
