INTRO:

**G**

**G**

Sometimes her heart beats fast

**Bm** **C** **G**  
Like a little heart attack but I love her, I do

**G** **Bm**  
All the creatures in the night, coming at her like dynamite

**C** **G** **D**  
But I love her, I do - o

**Am** **C** **G**  
Oh I wanna be the pill that calms her down

**Am** **C** **G** **D**  
The medicine inside her veins when I m around

**Am** **C** **G**  
I would guess its hard to fall

**Am** **C** **G** **Am**  
If you never hugged enough for love the way we all hope to be loved

**C** **G** **Am** **D** **G**  
When the sidewalk ends, I will catch you friend

**G**  
She said she s leveled out

**Bm** **C** **G**  
The medications working out and I hate her, I do

**G**  
She constantly pulls back from me

**Bm**  
I take it out, I fucked up

**C** **G** **D**  
Geez I hate her, I do - o

**Am**                    **C**                    **G**  
Oh I wanna be the pill that calms her down  
**Am**                    **C**                    **G**                    **D**  
The medicine inside her veins when I m around

**Am**                    **C**                    **G**  
I would guess its hard to fall  
**Am**                    **C**                    **G**                    **Am**  
If you never hugged enough for love the way we all hope to be loved  
**C**                    **G**                    **Am**                    **D**                    **G**  
When the sidewalk ends, I will catch you friend

**Am**                    **G**                    **D**  
Hey I know, I know its hard  
**Am**                    **G**                    **D**  
All demons pulling down your stars  
**Am**                    **C**                    **G**                    **D**                    **C**  
A victim of consequence, no weapons for defense  
**Am**                    **G**                    **Am**                    **G**  
Hey I - I - I, hey I - I - I,

**Am**                    **C**                    **G**  
I would guess its hard to fall  
**Am**                    **C**                    **G**                    **Am**  
If you never hugged enough for love the way we all hope to be loved  
**C**                    **G**                    **Am**                    **D**                    **G**  
When the sidewalk ends, I will catch you friend
