

**Dont Wait For Me To Fall**  
**Jessie Gestrin**

**A** **G**  
And if you re asking me to stay  
**D**  
Don t wait for me to drift away  
**A**  
Cuz you won t like the way it feels  
**A** **G**  
And if you keep me from the ground  
**D**  
I ll find it hard to reach the sound  
**A**  
When I m head over heels

**G**  
I know your arms are open  
**D**  
And I m slippin from this cloud

Don t wait for me to fall (x2)  
AGDA

**A** **G** **D** **A**  
Don t make yourself seem too bittersweet  
**A** **G** **D** **A**  
Don t keep me hangin , hangin here by my feet  
**A** **G** **D** **A**  
Want you to show me, hold me, oh, but not too tight  
**A** **G** **D** **A**  
Want you to stay here, lay here throughout the night

**A** **G**  
So if you re asking me to stay  
**D**  
Don t wait for me to drift away  
**A**  
Cuz you won t like the way it feels  
**A** **G**  
And if you keep me from the ground  
**D**  
I ll find it hard to reach the sound  
**A**  
When I m head over heels

**G**  
I know your arms are open

**D**

And I m slippin from this cloud

Don t wait for me to fall (x2)

**A**                    **G**                    **D**                    **A**  
So sweep me up and I swear it wont be too much

**A**                    **G**                    **D**                    **A**  
Don t hold me down, keep me around and I ll melt by your touch

**A**                    **G**                    **D**                    **A**  
It may seem wrong, I don t belong up here this high

**A**                    **G**                    **D**                    **A**  
If it gets too tall, I may just fall right from the sky

**A**                    **G**  
So if you re asking me to stay

**D**  
Don t wait for me to drift away

**A**  
Cuz you won t like the way it feels

**A**                    **G**  
And if you keep me from the ground

**D**  
I ll find it hard to reach the sound

**A**  
When I m head over heels

**G**  
I know your arms are open

**D**  
And I m slippin from this cloud

Don t wait for me to fall (x2)

**A**                    **G**  
If I could find the words to say

**D**  
Just bring me back another day

**A**  
But then I d leave you more confused

**A**                    **G**  
And if you said that you would wait

**D**  
Still I d keep you here too late

**A**  
And I can t stand to see you lose

**G**

I know your eyes are open

**D**

Can t you see me slippin from this cloud

Don t wait for me to fall (x2)
