Judas: My mind is cleared now - at last all too well  
-----                  F                          G                          Dm  
                  I can see where we all soon will be  
                          Dm                          F                          G  
                  If you strip away the myth from the man

                  The things they say of you  
                          F  
                  You really do believe  
                          G                          Dm  
                  This talk of God is true  
  
                  And all the good you ve done  
                  Will soon get swept away  
                  You ve begun to matter more  
                  Then the things you say  
  
                  Dm                          F  
                  Listen Jesus I don t like what I see  
                  Dm                          G  
                  All I ask is that you listen to me

                  And they ll hurt you when they find they re wrong  
  
                  I remember when this whole thing began  
                  No talk of God then - we called you a man  
                  And beleive me - my admiration for you hasn t died  
                  But every word you said today  
                  Gets twisted round some other way  
                  And they ll hurt you if they ll think you ve lied
