Jethro Tull

tape .I discovered a great band whose bassist (I don t khnow his name) amazed me and now I think that he is one of the greatest bassists in the world (with Tony Levin,Billy Sheehan,Stu Hamm,the great John Myung of course,...and lets say ...Flea...why not?)

I didn t put the rests because there are too much,just listen to the song to khow when to play them.

One last thing ,I didn t manage to find the bass solo.I you find it send it to me: the one who manages to find it is really the king of the bass!!!!!!!

Enjoy!

Then comes the bass solo. It is played with chords and it s really very difficult to play. I only have a walkman tape player and my bass is an awefull Fender Precision s imitation from Taiwan or something like * I forgot to say you that I play the bass for only 5 or 6 months... So you ll understand that I didnt manage to find this solo... :(

play a bass line quite similar to the first one:
