Walking with you

:Verse 2 (same as verse 1)

And the limp face hungry viewer fight to fasten with their eyes
Like the man hung from the trapeze whose fall will satisfy
And congratulate each other on their rare and wondrous deed
That their begrudged money bought to sow the monkey s seed
And the yellow soft mountains grow very still
Witness as intrusion the humanoid thrill

Chorus

I m with you L.E.M. though it s a shame that it had to be you
The mother ship is just a blip from your trip made for two
I m with you boys so please employ just a little extra care
It s on my mind I m left behind when I should have been there
Walking with you
