Jethro Tull

C            C/B            Am            Am/G  
As the dawn sun breaks over sleepy gardens  
F            Am/E            Bb            Am  
I ll be here to do all things to comfort you.  
G            Am            D            C  
And though I ve been away left you alone this way  
Em            F            D7            G7            C  
why don t you come awake and let your first smile take me home.

( C/B Am Am/G F Am/E Bb )

C            C/B            Am            Am/G  
The shadows in the park were longer yesterday  
F            Am/E            Bb            Am  
and Lady Luck stood still, waiting for the kill.  
G            Am            D            C  
And on a jumbo ride over seas grey, deep and wide  
Em            F            D7            G7            C  
I flew for heaven s sake and let the angels take me home.

( C/B Am Am/G F Am/E Bb )

C            C/B            Am            Am/G  
Down steep and narrow lanes I see the chimneys smoking  
F            Am/E            Bb            Am  
above the golden fields ... know what the robin feels  
G            Am            D            C  
in his summer jamboree. All elements agree  
Em            F            D7            G7            C  
in sweet and stormy blend --- midwife to winds that send me home.

( C/B Am Am/G F Am/E Bb )
