

Ring Out Solstice Bells Jethro Tull

This is a simplification, as is common when trying to chord after Anderson who seems to rules whether they need it or not. Even so, following along with the recording is more than it appears here due to time changes, including dropping a beat here and there to parts of this something like 4:7 time. Thus the chords are novice, but the playing is level. But just let it flow, and you ll catch on. When you do it s a darn fun strum, and great way to show off at holiday visitors.
