Ooh my my my, Ooh my my my

All verses same as verse 1

Went down to the station to look for her there
Lokked through the crowd for a glimpse of her hair
Nothing to see but the crowds keep a staring
At me my my, Ooh my my my

Down in the street trying to remember
Shuffling my feet outside a menswear
Is that her in the fur coat no it s not December
Yet my my my, Ooh my my my

Flute solo over **Em**

Singing all day singing bout nothing

Back to the house maybe she ll phone me
Singing my song feeling so lonely
I sing very softly so if the phone rings
I can hear it, I can hear it

Singing all day singing bout nothing
Singing all day singing bout nothing
Singing all day singing bout nothing
Ooh my my my, Ooh my my my

Flute solo to fade over **Em**
