Chocolate Sunrise
Capo 3

Pluck the top 3 strings

G **C**
I saw the sun rise in your eyes
G **C**
Then it went behind a cloud
G **C**
Hail and snow of disbelief came raining down
G **C**
I saw the sun set in your eyes
G **C**
Filled me with wonder and surprise
G **C**
Never knew I loved a chocolate sunrise til I saw your eyes
G **C**
I saw the glory of the risen Lord
G **C**
Faithfully across the shore
G **C**
I ve been in this boat before
G **C**
So far, so far away from shore
G **C**
I saw a million reasons to love
G **C**
But only could stand on one
G **C**
Because you loved me
G **C**
Because you loved me first

C **Em**
But if I m gonna stand in the pouring rain
F **C**
I m gonna make sure that your there holding my hand
C **Em**
And If I m gonna stand in the darkest valley
F **C**
I m gonna need you to shine your light for me
C **Em**
And if I m gonna fall into a hole
F **C**
I ll give you the rope so you can pull

C **Em**
 And If I m gonna jump to a land of new heights
F **C**
 I m gonna bring you up to see all the sights
C **Em**
 And If I m gonna play a game of hide and seek
F **C**
 You be the hide and I ll be the seek
C **Em**
 And If I m gonna give my bread to the hungry
F **C**
 I m gonna need you to give your bread with me

(Same pattern and chords as Verse 1) **G C**

I saw a darkness I never want to face
 It s covered with light when I kiss your face
 I saw a light consuming me, reflections of love
 Cut soul deep
 I saw a yellow butterfly
 This time I won t mistake the signs
 I saw a vision of you and me
 Holding tightly the way it should be

C **Em**
 But if I m gonna grow old and wrinkly
F **C**
 I m gonna want you there turning grey with me
C **Em**
 And if I m gonna leave a legacy
F **C**
 I m gonna want your name written next to mine in history
C **Em**
 If I m gonna go out with a bang
F **C**
 You be the trigger and I ll the be bang
C **Em**
 And if I m gonna have to die eventually
F **C**
 I m gonna want you there waiting for me
C **Em**
 And if I ve got a song in heaven to sing
F **C**
 I m gonna need some one to harmonize with my melody
C **Em**
 If I believe won t you believe too?
F **C**
 I don t have enough faith for you and me
