

Twinkle Twinkle Little Star  
Jewel

D G A D  
Twinkle, twinkle, little star,

G D A D  
How I wonder what you are.

D G D A  
Up above the world so high,

D G D A  
Like a diamond in the sky.

D G A D  
When the blazing sun is gone,

G D A D  
When he nothing shines upon,

D G A D  
Then you show your little light,

G D A D  
Twinkle, twinkle, all the night.

G C D G  
Then the traveller in the dark,

C G D G  
Thanks you for your tiny spark,

G C D G  
He could not see which way to go,

C G D G  
If you did not twinkle so.

D G A D  
In the dark blue sky you keep,

G D A D

And often through my curtains peep,

**D G D A**  
For you never shut your eye,

**D G D A**  
Till the sun is in the sky.

**D G A D**  
As your bright and tiny spark,

**G D A D**  
Lights the traveller in the dark.

**D G A D**  
Though I know not what you are,

**G D A D**  
Twinkle, twinkle, little star.

**D G A D**  
Twinkle, twinkle, little star,

**G D A D**  
How I wonder what you are.

**D G D A**  
Up above the world so high,

**D G D A**  
Like a diamond in the sky.

**D G A D**  
Twinkle, twinkle, little star,

**G D A D**  
How I wonder what you are.

**G D A D**  
How I wonder what you are.
