**D**            **C**            **C/B** **Am**  
And Elizabeth, please don't mention any of this

**G**            **D**            **C**  
Cause I know that won't stay here forever

**G** **D** **C**  
We tried and we tried and we tried

**G** **D** **C**  
But more can you keep this together

**Am**                    **D**  
Cause I'm just along for the ride

And I know that you're heading home soon, it's up ahead  
And sincerely I don't blame you  
But love, I need the rest

Cause I know that won't stay here forever  
We tried and we tried and we tried  
But lord can you keep this together  
Cause I'm just along for the ride

**C**  
She used to tell me that sometimes  
That was a good thing in your life

Cause I know that won't stay here forever  
We tried and we tried and we tried  
But lord can you keep this together  
Cause I'm just along for the ride

And I know that won't stay here forever  
We tried and we tried and we tried  
And lord can you keep this together  
Cause I might stick around for awhile

I might stick around for awhile

She used to tell me that sometimes  
That was a good thing in her life  
And so why do you keep asking about my regrets  
And Elizabeth, please don't mention any of this

Cause I know that won t stay here forever  
We tried and we tried and we tried  
But more can you keep this together  
Cause I m just along for the ride

And I know that you re heading home soon, it s up ahead
