Will Of The Wind
Jim Photoglo

HI GUYS! :) THIS IS MY FIRST TIME TO SUBMIT A TABBED SONG! HAHA..

[Verse 1]
```
        G
i spent half my life
                              C
looking for the reasons things must change
     G                            C                        Em
and half my life trying to make them stay the same
                            Am
but love would fade like summer into fall
            D
all that i could see was a mystery
     F                G
it made no sense at all
```

[Chorus]
```
               C
the will of the wind
               G
you feel it and then
          F                   G
it will pass you blowing steady
               C
it comes and it goes
               G
and God only knows.
          F                   G
you must keep your sails on ready
               Am                       D7
so when it begins, get all that you can
               F        G          C
you must befriend the will of the wind
```

G-C-G-C
Em-Am
D-F-G

[Verse 2]
i spent so many hours
just thinking bout the way things might have been
and so many hours trying to bring the good times back again
and so it goes for lonely hearted fools
they let their days slip away
until they give into..

[Chorus]

```
                   C
the will of the wind
                G
you feel it and then
       F                 G
it will pass you blowing steady
                C
it comes and it goes
                G
and God only knows.
          F                 G
you must keep your sails on ready
          Am                        D7
so when it begins, get all that you can
          F         G         C
you must befriend the will of the wind

THEN
TRANSPOSE (CHORUS)   D-A-Bm-A
                     D-A-Bm-A
                     Bm-Em
                     Bm-A-D

RYAN.. I MISS YOU! :)
