COME ON (LET THE GOOD TIMES ROLL)

I m missing a few parts in this song, but it s all based on the same melodic riff, but I did tab out in this song is pretty damn close to 100% I m also missing the solo... is too bad. But Jimi never played the solo the same way, he did a lot of improv. Some is to run through some of your penatonic scales, blues scales, and maybe some major I might tab the solo later and add it to this tab... but I will probably forget. and if have a wah wah.. then use it
