=====

Intro: Cadd/**G**

Verse 1 chords:

Cadd/**G** **Am**  
I saved a room of courage and I ll spend it now  
**F**  
But all for what I ask myself  
**Am** **G**  
No it doesn t feel than an answer matters  
Cadd/**G** **Am**  
Oh I thought I needed you to give me strength  
**F**  
With things I hoped you d say  
**Am** **G**  
But as you stay quiet I just wonder

Chorus 1 chords:

**C** **G** **F**  
Only one thing left I wished I knew  
**C** **G** **F**  
How did you have me and I only got you?  
**C** **G** **F**  
If there s all bad timing and there s no control

**C** **G** **F** **C**  
I m gonna do anything, gonna do everything I want...from now on

Interlude: [**C** - **Am** - **C** - **F**]

Verse 2: [use verse 1 chords]

None of you will change your voice, you change your face  
Scared to say what s wrong  
But we kept going on yeah, kept going on like  
Two adult children engaged in separate play  
You can run down all those days to me  
Run through the whole year but why?

Chorus 2: [use chorus 1 chords]

Only one thing left I wished I knew  
How did you have me and I only got you?  
If it s all bad timing and there s no control  
I m gonna do anything, gonna do everything I want...from now on

Interlude: [**C** - **Am** - **C** - **F**]

Bridge 1 chords:

**C** **G**  
No one else would be as patient or at least be so forgiving  
**C** **F**  
I m not curious if all of your heart was  
**C** **G**  
You can talk and I might listen, hate the ones you show the present  
**C** **F**  
I m done living, now her life is hers

Interlude: [**C** - **Am** - **C** - **F**]

Chorus 3: [use chorus 1 chords]

Only one thing left I wished I knew  
How did you have me and I only got you?  
If it s all bad timing and there s no control  
I m gonna do anything, gonna do everything I want...from now on
