Hey there little flower, how do you grow
G
Does the sun light your power,
C
I gotta know
G **D** **C** **G**
I gotta know more, know more than you

G **C**
Hello little star, I spied on you
G
They say you're a million miles away
C
Tell me is that true, cause
G **D** **C** **G**
I gotta know more, know more than you

Am **C**
I went to the circus and I saw this bear
Am **C**
He was riding a bicycle trying to be human
Am **C**
We all laughed cause we knew he couldn't do it
Am **D**
C
We ask the questions then make all our own answers up

G **C**
Hello Lord, I got your number now
G **C**
It took me a while but I figured you out

And now
G **D** **C** **G**
I know more, know more than you
G
Now I know more,
C
I know more than any god in the hell or heavens knows
G
I know more than anybody could ever know
C
I know more, more is the science of this world
G **C**

I finally understand, it cant be understood

G **C**
I finally understand the good Lord canâ€™t be understood
