Notes: \* The Intro is Am F C played thru twice.  
 In each chord the index finger holds a C note on the 1st fret B string. Using a Travis style picking, this note dominates the top of the progression while the thumb walks down the three chords.  
 (Unfamiliar with Travis fingerpicking go to Youtube)  
 \*\* Using the same three chords in transition points, do a three note pinch using thumb, index and second fingers; Pinch the Am, pinch the same three strings open, move down one string, pinch the F, pinch the same three open (adding 2nd fret A string), move down one more and pinch the C, rest, rest, rest, repeat. (Pinch 1 & 2 & 3, Rest & 4 &, repeat)

<b>Am</b>	<b>F</b>	<b>C</b>	(Repeat)
