

**You Would Love Me Too**  
**JJ Heller**

Capo on 5th Fret

**G** **C**  
We could talk for hours

It doesn't matter

**G** **D**  
You don't hear a word I say

**G** **Am**  
Cause you don't listen when I speak

**C** **D** **G**  
So I'll sing instead

**C** **G**  
La la la la la I love you

**Am** **G**  
Ooh I really do

**C** **G**  
If you ever paid attention

**C** **D** **Em**  
I think you would love me too

**G** **C**  
You say you want to know me

**Am** **C** **D**  
I get the feeling that you're telling me a lie

**Am** **G\***  
Cause every time I talk about emotion

**C** **D** **G**  
You shake your pretty head and say goodbye

**C** **G**  
La la la la la I love you

**Am** **G**  
Ooh I really do

**C** **G**  
If you ever paid attention

**C** **D**  
I think you would love me

**G** **D**  
Why do I love you like I do

**G**  
When you ignore me

**C** **G**  
Just like the sun ignores the moon

**Am** **Em**

All you see is you

**G**

I love you

**Am**                      **G**

Ooh sad but true

**C**    **G**

If you ever paid attention

**C**                      **D**                      **G**

I think you would love me too

**G**

I love you

**Am**                      **G**

Ooh I really do

**C**    **G**

If you ever paid attention

**C**                      **D**                      **G**

I think you would love me too

**D**                      **G**

Love me too

**D**                      **G**

Love me too
