

Beat Again

Jls

Intro: G#m, E, F#

G#m

Damn,

The Doctor's just finished telling me there's no time

Losing you could be the end of me and that I

Should do the things that I wanna do how could I

Without you, without you, oo-woah

G#m

Cos you're the only one I let in

Tell me how to stop this feeling spreading

I'm hoping somehow that you know, o-oh, o-oh, oo-woah-o-oh

G#m

Let's just get back together, we should've never broke up

They're telling me that my heart won't beat again

We should have stayed together cos when you left me it stopped

They're telling me that my heart won't beat again

Won't beat again, it's killing me

G#m

If I died,

Yeah would you come to my funeral would you cry

Would you feel some regret that we didn't try

Or would you fall apart the same as I without, without you oowoah

And would it always haunt you baby

That you missed your chance to save me

Cos you know it's not too late
