

**You And Me**  
**Joan Franka**

Joan Franka " You and Me  
by Ari B

**F#**

I was five, you were three

**B**

We were dancing in the street

**C7**

**F#**

And you look just like an angel

You looked opposite the sky

Saw the birds and wondered why

They can fly, a way, so high

**B**

In the morning I would wake

And my heart just getting weak

**F#**

To play in your backyard

**B**

In the evening I would go

Telling you I love you so

**C7**

And I can't wait to see you again

**F#**

It's you and me and everybody out there

**Bbm** **Bm** (alleen **F** aanslaan)

And I can sing that everybody knows

**F#**

About you and me, but others really care for

**Bbm**

**Bm**

**F#**

And I can sing that everybody knows, about us

We grew up, all in love

Thinking from all above

That we could be together forever

We would never say goodbye

Cause we promise, you and I

Better love you and had no tie

And I see you walking by

My heart's wonder why

We don't play around no more  
Such a shame, we have no time  
They were right, we run right  
I still love you and in my mind

It's you and me and everybody out there  
And I can sing that everybody knows  
About you and me, but others really care for  
And I sing can sing that everybody knows, about us

So lyin' in bed, thinking about your days  
Thinkin' about it all and how it ends sometimes  
Was it wrong or right, was I good enough

It's you and me and everybody out there  
And I can sing that everybody knows  
About you and me and everybody out there  
And I can sing that everybody knows
