G Em D/F# C D Cm Am

G
She hangs wind chimes from her ears

Em

C D

But I still can't tell which way her mood's blowing

G D/F# Em C

The shades of her eyes well don't let them fool you now,

D

Cos naive is not her middle name

G

She's a kaleidoscope,

Em

C

a new shade for each new way in which she draws you close

D

and then stumbles on your name

G

Em

She is a battlefield, except you're fighting with yourself

C

D

To keep your heart of steel, from melting to the ground

Em

C

G

D/F#

Em

She is an ooh ooh... Kaleidoscope

C

Cm

She is an ahhh oooo... Kaleidoscope

G---Em---C

G **D/F#** **Em**
A moat surrounds her fortress,
C **D**
her long technicolor hair she dangles almost to the ground,
G **D/F#** **Em**
So that my finger tips always fall short of,
C **D**
The light that glows so sweet and blindly guides without a care

G **Em**
Sheâ€™s a Kaleidoscope, a new face for each new day
C **D**
in which she draws you close and then stumbles on your name
G **Em**
She is an astronaut dancing freely through the air
C **D**
Between each telescope that tries to catch her if they dare
D
Try to catch herâ€¦|

C
Oh she comes and then sheâ€™s gone,
C
To the eye so kind for the heart so wrongâ€¦|
C
Oh she comes and then sheâ€™s goesâ€¦|
C **Am**
To my eye so kind, but thatâ€™s the one thing for sure she knows.

G
Oh kaleidoscope,
Em **C**
a new shade for each new way in which she draws me close
D
and then you stumble on my name
G **Em**
You are a battlefield, leaves me fighting with myself
C **D**
To keep my heart of steel, from melting to the ground
Em **C** **G** **D/F#** **Em**
She is an ooh ooh... Kaleidoscope
C **Cm**
She is an ahhh oooo... Kaleidoscope
