Verse 1

If you're lost in your troubles
And the world just seems to forget you
If you remember sunshine
even on your darkest day
Just follow what your heart says
And you will find the way

Bridge

Some said I was hopeless
Mind tangled in the night
Strong hearts just keep going
That is why I'm still standing here today

Chorus

Come together
raise up your voices
This time my song of love and life won't go away
I'll sing forever
here in the sunshine
I've lived to see the sun break through the storm
And I'm so glad I'm standing here today.

I'm so glad I'm standing here today
