

You Dont Know What You're Doing To Me
Joe Cocker

Intro: B Bm6 F# E6 B Bm F#

When moonlight casts a shadow,
on the shores of make believe
I play the part, of the fallen start
I spiral down to the ground to where you are

Inspired by the feeling,
of loving from afar
I play the tune of the all consumed
I m mystified, preoccupied over the moon

You don t know what you re doing to me
My dreams about you never seem to sleep
Well my heart is near exhaustion, by the rapid pace it keeps
You don t know what you re doing to me

What kind of competition,
yields such a lovely prize
A silly game but the only way
So deal me in if I m to win I have to play

You don t know what you re doing to me
My dreams about you never seem to sleep

Well my heart is near exhaustion, by the rapid pace it keeps
