Em   G           D           Em
I might just change my mind
G           D           Em
Sometimes you can never tell
G           D           Em
Where a story will unwind
G           D           Em
How deep is the shallow ground

C           Am       Em
Sometimes you would never guess
G           D           Em
Who s all talk and who just might
C           Am       Em
Find a way or lose themselves
G           B7*      Em
On the king s highway tonight

```

After each Em following a G you always do the open, 2nd, 3rd on the E string.

G **D** **Em**
I am just like many more
G **D** **Em**
Who lie in bed, still and numb
G **D** **Em**
Waking up and I can see
G **D** **Em**
Just how dark it has become

C **Am** **Em**
Who knows no better angels now
G **D** **Em**
Who knows none but earthly light
C **Am** **Em**
Who is waiting for a stranger
G **B7*** **Em**
On the king s highway tonight

And so on, not 100% to me but it sounds good.
