

**G** **D**  
And I waved goodbye

**Em** **D/F#** **C**  
And as her tail lights fade

**G** **D/F#** **C**  
Into the night sky

Chorus:

**G** **G/F#** **C** **G** **G/F#** **C**  
Say hey, don't you leave me in LA alone

**G** **G/F#** **C** **G** **G/F#** **C**  
Lover please, turn that car around and come back home

**G** **G/F#** **C** **G** **G/F#** **C**  
New York, such a beautiful city I'm sure

**G** **G/F#** **C** **G**  
It's just too far from my California girl.

And then back to the verse. Beautiful song, enjoy. Comments are welcome.
